Attachments: Partial Assumption Memo_020519.docx

Lauren managed to get me edits at the end of the day yesterday and I incorporated them into my memo. I've attached the updated memo. Let me know if you have any questions.

Nicholas Warren
ORISE Research Participant
U.S. Environmental Protection Agency
Program Development and Jurisdiction Branch
Oceans, Wetlands, and Communities Division
Office of Wetlands, Oceans, and Watersheds
Office of Water

There are enough lawyers on this group if we frame it, they can help with analysis. 😊

However, beforehand I would like to meet to discuss how the issues should be framed and presented once you both have the chance to glance over the paper at least. I have attached my memo to this email, however I originally wanted to run it by Lauren as well just to get another lawyer to glance over to ensure that it makes legal sense before it goes out. However, if there isn't time before Wednesday to do all of that I understand.

>
> Hope you had a good weekend. I wanted to touch base with you and Nick on the agenda for Wednesday's workgroup call. We had planned to start discussing partial assumption and sharing Nick's analysis. Let me know if we're ready to do that, and if so, shall we send out Nick's paper either today or tomorrow (and/or post on the Sharepoint site). We might also want to touch base with Pat (if he's available) regarding facilitating the discussion.
